UNIVERSITY COLLEGE

METROPOL

WELCOME TO METROPOLITAN UNIVERSITY COLLEGE

Metropolitan University College is a university of applied sciences with campuses in Copenhagen, the capital of Denmark, and the Greater Copenhagen Area.

Metropolitan University College is an institution of higher education and research. We actively contribute to the surrounding community by educating people to play an important role in the development of the future welfare society.

Located in some of the most attractive areas of Copenhagen, Metropolitan University College enjoys dynamic and academically strong campus environments.

Education and more

Metropolitan University College strive to lead within the academic world with programmes rooted in practice and relevant research.

We aspire to be in the forefront of digital education and development. Digital solutions are an important part of our programmes - connecting with and educating students within our full-time and continuing education programmes.

We believe that knowledge impacts and challenges people. Being a driving force in the development of the surrounding community with the help of our students is therefore an important part of our DNA

STUDY PROGRAMMES

Metropolitan University College offers Professional Bachelor's programmes, Academy Profession programmes, continuing education programmes and conducts applied research and development within health, rehabilitation, welfare technology, management, education and social work.

Metropolitan University College has two faculties: Faculty of Health and Technology and Faculty of Social Science and Pedagogy.

Professional Bachelor programmes

- Nursing
- Radiography
- Midwifery
- Physiotherapy
- Occupational Therapy
- Nutrition and Health
- Global Nutrition and Health
- Teacher
- Social Work
- Emergency and Risk Management
- Natural and Cultural Heritage Management
- Public Administration
- Business of Public Administration
- Chemical and Biotechnical Technology
- Biomedical Laboratory Science

Global Nutrition and Health offers theoretical courses in English. In addition, all programmes offer internships for exchange students.

Our Professional Bachelor programmes have a duration of 3-4 years equivalent to 180-240 ECTS (European Credit Transfer System).

Academy Profession (AP) programmes

- Business and Public Administration
- Chemical and Biotechnical Science
- Emergency Technology
- Employment
- Public Administration
- Social Work
- Youth and Adult Education

The Chemical and Biotechnical Science Academy Profession Degree programme offers students a top-up Professional Bachelor's degree programme after completion.

Our Academy Profession programmes have a duration of 2-2½ years, equivalent to 120-150 ECTS.

Continuing education programmes and diploma programmes

Metropolitan University College offers a range of specialisations for qualified practitioners through continuing education programmes.

Activities in continuing education include diploma programmes, courses and seminars. These are closely related to the subject fields of the Bachelor programmes. The continuing education programmes are primarily aimed at Professional Bachelors with some years work experience. Students of these programmes are usually 25 years or older.

Metropolitan also develops tailor-made education programmes for and with organisations. Several of the diploma courses are aimed at sectors other than health and welfare. The continuing education programmes typically charge students tuition fees.

RESEARCH AND DEVELOPMENT

The purpose of R&D at Metropolitan University College is to strengthen the ability of our graduates to create value for society, including the welfare state, citizens, companies and organisations they work for.

Thus, R&D at Metropolitan University College is relevant for the professions we educate when they address the societal challenges their professions are expected to handle.

Furthermore, we aim to circulate the result of R&D through our programmes and training activities as this is the most important ways for professionals to establish and improve their skills.

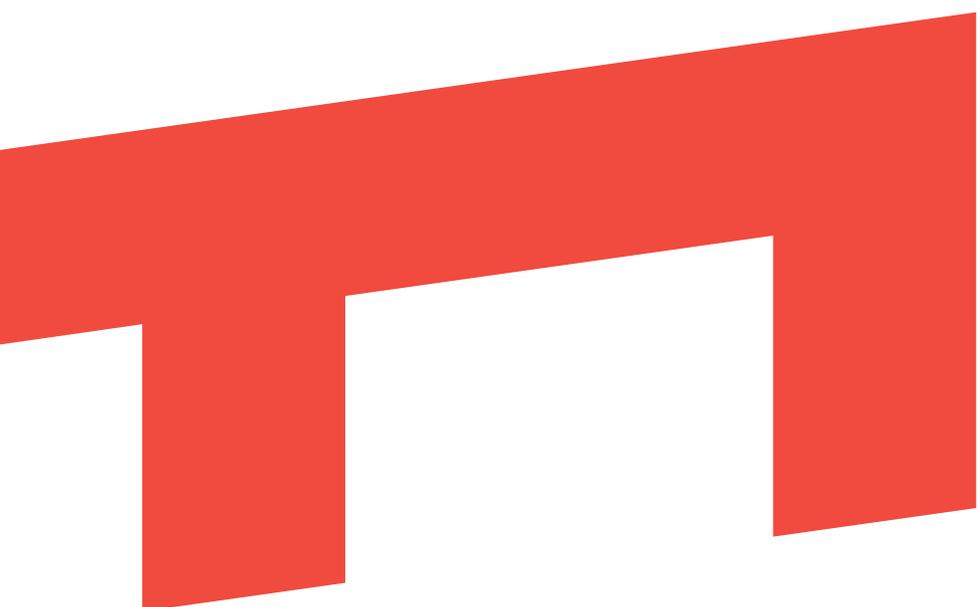

Finally, Metropolitan University College is part of the research community and communicates with peer researchers through scientific conferences and publications.

INTERNATIONAL PARTNERS

Internationalisation is a main priority at Metropolitan University College.

Metropolitan University College has partners all over the world and engages in a wide range of international activities, e.g. student and staff exchange programmes, global programmes, internships, international partnerships and systems export, research and curriculum development. Visit our website for a list of our current partners.

Our study programmes contain international elements and many students choose to study abroad during a part of their studies or as an internship at an institution or organisation. Metropolitan University College is also home to many international students. Some choose to enrol in a full degree programme; others stay for one or two semesters.
